

3D Kermit the Frog Chef - Instructions

1. Print out Kermit on regular paper or cardstock and cut out all of the pieces. Do not cut along the dashed lines -- this is where you will fold the paper. Make sure to cut slits on tabs A, B, and C on the opposite side of the dashed line.
2. Fold Kermit's face and the back of his head toward you along the dashed line. Fold the base of Kermit across his apron toward you along the dashed line. Fold the remaining dashed lines away from you.
3. Glue the A tabs to the white side of Kermit's back, and the B and C tabs to the white side of Kermit's front. Glue the D tabs to the white side of Kermit's back to close his body. Glue the front and back of his head together so the design is two-sided.
4. Fold and glue his arms together along the dashed lines so the design is two sided. Attach the arms by folding the E and F tabs and gluing them to the corresponding spot on the side of Kermit's body. Make sure Kermit's right hand rests across the front of his body. Your Kermit is now complete!

About Disney's THE MUPPETS:

On vacation in Los Angeles, Walter, the world's biggest Muppet fan, his brother Gary (Jason Segel) and Gary's girlfriend Mary (Amy Adams) from Smalltown, USA, discover the nefarious plan of oilman Tex Richman (Chris Cooper) to raze the Muppet Theater and drill for the oil recently discovered beneath the Muppets' former stomping grounds. To stage a telethon and raise the \$10 million needed to save the theater, Walter, Mary and Gary help Kermit reunite the Muppets, who have all gone their separate ways: Fozzie now performs with a Reno casino tribute band called the Moopets, Miss Piggy is a plus-size fashion editor at Vogue Paris, Animal is in a Santa Barbara clinic for anger management, and Gonzo is a high-powered plumbing magnate. With a screenplay written by Jason Segel & Nicholas Stoller, the film is directed by James Bobin. Featuring signature celebrity cameos, Disney's "The Muppets" hits the big screen Nov. 23, 2011.
